MILLS ARE RESUMING WORK

AN INDICATION OF RETURNING CONFIDENCE AND PROSPERITY.

BANKS MAKE A GOOD SHOWING

One Firm Raises Wages, While Woolen Manufacturers Restore the Higher Scale of Five Years Ago.

A dispatch from Chester, Pa., says: The employes of George C. Haltsol & Co., manufacturers of worsted goods, have been notified that the wages paid in 1892 would be restored on September 6th next.

The notice was a surprise, as the restoration was granted by the firm without solicitation on the part of the hands. Haltsols & Co. employ sev-

eral hundred people.
Since 1892 two reductions of wages have been made, aggregating about 20 per cent, and until three weeks ago the mill has been running on half time. The firm has of late received many new orders and the employees are working full time.

Most of the cotton mills at Fall River, Mass., which have been stopped temporarily, started on full time Monday. The improved condition of the cloth market and the reported advancement of the cotton crop served to restore a measure of confidence among manufacturers. The curtailment has amounted to

about a quarter of a million pieces. The Eddy woolen mills opened its doors after a four months' curtailment. It is planned to start only the dye house at present, other departments

being opened as the work progresses.
The factory employs about 300 hands.
The Lonsdale Cotton Company's cotton mill at Providence, R. I., started Monday morning after a week's shut down, giving employment to about 5,000 operatives. It is stated

that the demand for weolen and cot-

ton goods is on the increase. The repairs in progress at the Methuen cotton mills at Methuen, Mass., are being pushed forward rapidly and it is expected operations will be resumed in some of the departments next Monday. The mills shut down August 7th, at which time it was stated that they would be idle three weeks. The mills employ about 500

The Naumekage steam cotton mills at Salem, Mass., resumed operations Monday after a shut down of sixteen days. The mills will run forty-two hours a week for the present, but will run on full time schedule before long, if the market is satisfactory. The plant employs 1,400 people.

Bank Statements Favorable.

Acting comptroller of the currency, Coffin, says there is much encouragement to be found in the bank statements now coming in from the last call.

He expects to give a recapitulation of them in a few days, but from those already in, he finds that the deposits throughout the country have greatly increased, indicating thereby that confidence has been sufficiently restored to induce people to take their money from their hiding places and put it in the keeping of the banks.

Loans have not increased so much as he would like to see it. But they have increased, which shows that bus-iness plans are being put into opera-tion. The rate of interest is low, proving that the banks have confidence in the reliability of the indications that good times are to return and that they are willing to assist reliable enterprises for small compensation.

RETURNED HOME TO DIE.

Fugitive President Parsons Is Penniless and Suffering From Fatal Disease.

A dispatch to The New York Herald from Hartford, Conn., says James S. Parsons, the fugitive president of the Continental Life Insurance Company, has returned, after an absence of ten years, penniless, to pay his debt to nature.

He is said to have an incurable disease of the stomach and can live but a short time. He has been living in Canada since the wrecking of the company, but for a year or so intimate friends have known that he was in Massachusetts, latterly in a Boston hospital.

COLORED PARSONS BAILED.

Parties Concerned In Church Murder at

Montgomery, Ala., Give Bond. The habeas corpus hearing in the Patterson murder case at Montgomery, Ala., in which Revs. Stokes, Brown, Bray and Mace Coleman asked bail was head before Judge Sayre on Satarday and was completed just before midnight, bail being granted to Stokes in the sum of \$1,500. The others gave bond for \$750 each.

There was no testimony adduced by the state going to show a conspiracy between the prisoners, and but for the fact that the grand jury had indicted them, Judge Sayre intimated that he would not have held them at all.

HANNA AND GAGE DISAGREE.

Trouble Over Appointment of Custom Cliector at New Orleans.

A Washington dispatch says: There is a scrap between Secretary Gage and Mark Hanna with McKinley as referee. The trouble is over the attempt of Hanna to have A. T. Wimberly appointed collector of customs at New Orleans.

Gage opposes the appointment on the ground that Wimberly demanded of Mrs. Marthilde Guile, of New Or-leans, the honor of her daughter as the price of appointing her to office.

SUSPENSE AMONG STRIKERS.

A Day Fraught With Important Moves Court Hears Injunctions.

A Pittsburg special says: Monday was fraught with exciting instances in matters pertaining to the miners' strike. Mutiny in the strikers' camp, a mur-

der in the deputies' ranks, filing of criminal and civil suits against the DeArmitts and the hearing in the injunction case against President Dolan and others kept both sides to the struggle busy and on the qui vive all day long.

The hearing in the injunction case

before Judges Stowe and Collier was perhaps one of the most important and interesting ever held in a Pennsylvania court.

It was a hearing in which both capital and the rights of labor were interested, and the decision is expected to have a decisive effect on the conduct of the great coal miners' strike, which has been on since July 5th. From the testimony adduced and from the expressions of the court it can safely by said that there will be some surprise. That the injunction will be materially modified there can be no doubt. This, on its face, would indicate a victory

for the strikers. Judge Collier said in court that the strike would go down in history as one of the wonders of the century and remarkable on account of utter lack of disorder, for which the strikers are commended. He said: "There can be no question as to what our duty is under all the testimony, but I am somewhat in doubt as to whether or not the order should be modified. We cannot determine this without a consultation.'

Judge Stowe said: "This injunction will not justify the issuing of an attachment against any marchers who are not found in company with the men named in the injunction."

He let it be understood that the injunction is not so sweeping as has been thought; that only the five men named in the writ, Patrick Dolan, William Warner, Cameron Miller, Uriah Bollingham and Edward Mc Kay, are restrained from marching or trespassing on the company's property. The others mentioned can be only those found in the company of the five named in the injunction. As near as can be learned, the strikers under the injunction can march, but not at stated times, as long as they are not in company with any of defendants.

Threatened suits against the New

York and Cleveland company for retaining the wages of their striking miners have been commenced. It is anticipated that about 150 suits will result. Each will be for salaries ranging from \$15 to \$20, which represents two week's pay.

In addition to the civil suits entered

against W. P. DeArmitt by his former employes for wages, three criminal suits have been brought against Samuel DeArmitt.

SOUTHERN PROGRESS. New Industries Established In the South

During the Past Week. Reports from special correspondents

at prominent business centers of the south continue encouraging and both merchants and manufacturers are looking forward to a large volume of trade in the fall.

As to iron and steel, prices are firm, with some advances, and inquiries are increasing. The demand is active and idle furnaces are being repaired and blown in.

Lumber is moving freely and southern cottton mills are well supplied with orders and for the most part running on full time.

Among the most important new in-dustries reported for the past week are the following: Flouring mills at New Decatur, Ala., and Francisco, N. C.; the Cold Storage, Ice, Power and Water company, capital, \$75,000, at Ennis, Tex.; railroad shops at Montgomery, Ala.; an extensive rolling mill and spike factory at Sheffield, Ala.; the Economic Medicine Chest company, capital \$25,000, Paris, Tenn.; and the Oil City company, capital \$10,000, to develop oil property at Corsicana, Tex.; the Southern Cotton Seed company, limited, capital \$100,000, has been chartered at New Orleans, La., to erect an oil mill and other oil mills will be located at Memphis, Tenn., and Wills Point, Tex. A knitting mill will be built at Macon, Ga.; a \$50,000 cooperage plant at Lit-tle Rock, Ark., and a \$200,000 company has been organized to operate saw and planing mills at Cameron, N. C.—Tradesman (Chattanooga, Tenn.)

DR. HUNTER LOSES.

Judge Cantrill Decides That the Bribery Cases Must Be Tried.

A special from Georgetown, Ky., says: The Hunter bribery cases were brought before Judge Cantrill and de-cided adversely to Hunter Monday.

In other words, the demurrer of the Hunter side was overruled by Judge Cartrill, which forces the cases to trial. The demurrer was argued by the defendants themselves and the commonwealth attorney for the state.

MURDERER PERRY RESPITED.

GOVERNOR GIVES HIM THREE WEEKS LONGER TO LIVE.

HIS CASE DIFFICULT TO DECIDE.

A Mass of Conflicting Affidavits Decides the Governor to Take More Time For Investigation.

H. S. Perry, the condemned murderer of Bely Lanier, at Decatur, Ga., and who was to have been hung last Wednesday, has been respited by Governor Atkinson until the 8th of September in order that he may have time to consider the application for clemency. The executive order is as follows:

'To the Sheriff of DeKalb county: "Whereas, H. S. Perry was convicted in the superior court of DeKalb county, of the crime of murder, and was sentenced therefor to be executed on the 18th day of August, and,

"Whereas, Further time is needed by m for the consideration of the case, and in order that other evidence may be submitted which it is represented to me can be had.

"You are, therefore, hereby directed to postpone the execution of said sentence of death upon the said H. S. Perry until Wednesday, the 8th of September, 1897, when, in the absence of any legal order otherwise directing, you will proceed to execute the final judgment of the court in said case. Herein fail not. W. Y. ATKINSON, Governor."

In the conflict of evidence Governor Atkinson finds it hard to determine what is the truth about the killing of

N. B. Lanier by Perry.

The governor has spent some time in considering Mrs. Perry's affidavit, and other evidence bearing on the statement she made. He considered the dying statement of Lanier, and sent for Judge Ragsdale, who was present when the statement was made.

The two statements of the case of the killing, that by Mrs. Perry and that by Lanier, are in conflict. Mrs. Perry says Lanier outraged her; Lanier says he did not, but that at Mrs. Perry's request he went to find her husband, and located him in a house of ill repute, and because of this he was shot.

There are witnesses in corrohoration of Mrs. Perry's statement to the extent of testifying that Perry said immediately after the killing that he did it because Lanier outraged his wife. Lanier in his dying statement says that Perry, in the act of shooting him, declared that Lanier had outraged Mrs. Perry.
On the other hand Lanier denied

that he was guilty of any improper conduct toward her, and reproduced a letter which he said was written by Perry and delivered to him by Ike Shepherd, in which Perry said Lanier had come between himself and wife and must leave Atlanta or take the consequences.

Altogether the case presents some knotty points which the governor must decide for himself, and his decision is looked forward to with great

ECKELS' NEW JOB.

Comptroller Has Been Elected President of Insurance Company.

SILVER MINES STOP WORK.

Decline In Price of White Metal Cause Shut Down.

A special from Idaho Springs, Col., says: As a result of the decline in silver, the La Martine mine has discharged its force of men working on silver lodes. The La Martine has been one of the heaviest producers in the state. The company will not work the gold lodes in the mine.

The owners of the silver mines in the upper end of Clear Creek county will also discontinue the working of silver properties, and in the future give attention exclusively to the goldbearing veins.

SUFFERING WOMEN.

How Many of Them Have Quietly Obtained Advice That Made Them Well.

My sister, if you find that in spite of following faithfully your family doctor's advice, you are not getting well, why do you not try another course? Many and many a woman has quietly written to Mrs. Pinkham, of Lynn, Mass., stating her symptoms plainly and clearly, and taken her advice, which was promptly received. The follow-

ing letter is a pretty strong confirmation of our claims: "I had been sick for six months: one doctor told me I would have

to go to a

hospital before l would get well. I had female troubles in their worst form, suffered untold agonies every month; my womb tipped back to my backbone, had headache, hysteria, fainting spells, itching, leu-

corrhœa. "My feet and hands were cold all the time, my limbs were so weak that I could hardly walk around the house; was troubled with numb spells. I have taken four bottles of Lydia E. Pinkham's Vegetable Compound, one bottle of her Blood Purifier, one package of her Sanative Wash, and am entirely cured. I have not had one of those numb spells since. Can you wonder that I sing the praises of a medicine that has cured me of all these ills ?"-MRS. LOUISA PLACE, 650 Belmont St., Brockton, Mass.
